- **Tools: Netlify, Git, Github, Postman, VS Code**
- **Course: Full Stack JavaScript Web Development, Artificial Intelligence Machine Learning level 1, Python, Data Structures and Algorithms**

PROJECTS

- **RST-Store:**   **React.js, Node.js, Express.js, Redux Toolkit, MongoDB**

  - The primary objective of this e-commerce website project is to create an efficient and user-friendly online platform that enables customers to browse, select, and purchase products or services conveniently from the comfort of their homes.
  - The project aims to leverage cutting-edge technologies and user-centric design to provide a seamless shopping experience, ensuring customer satisfaction and fostering long-term relationships with the target audience.
  - Through this website, we seek to bridge the gap between sellers and consumers by offering a secure, reliable, and easily accessible online marketplace.

- **SociPedia: (Social Media)**   **React.js, Node.js, Express.js, Redux Toolkit, MongoDB**

  - A social media web application is an online platform that allows users to interact, connect, and share content with others. It serves as a virtual community where individuals can create profiles, post updates, share media, and engage in conversations with friends, family, and other users.
  - This web app is just like other social media platforms which allow multiple users who have this account to post videos, images, chat with their friends and families, comment and like or react on other's posts with a single tap!
  - The Web app is very flexible and user-friendly and is way too easy to use.

EDUCATION

- Guru Nanak Khalsa College of Science Arts and Commerce   2021-2024
  Bachelor of Science in Information Technology   CGPA: 8.0/10.0
- Guru Nanak Khalsa College of Science Arts and Commerce   2019-2021
  Higher Secondary Certificate (HSC) – Science   Percentage: 84.45
